

## Login & Registration Tutorial - English Instructions

Please follow these steps to ensure a successful login process

### For Registrations prior to August 31, 2024:

An account has been created for you already. Please log in (left side) using your previously registered email and the password that was sent to you by email from the Lilly or Encore Medical Education team. Your previous password will not activate the course.

Following this first log in, you may change the password that was sent to you by clicking the "Forgot your Password" button.

### For New Registrants:

#### Step 1:

Click the "Register" button (green) or "Create Account" button on left side.

If you select the (green) "Register" button on the right side you will see the product in your cart. To access the course, you must select the "Create Account" button.

The screenshot displays the ALPHA Academy website interface. On the left, a 'Please Login' sidebar contains input fields for 'Email' and 'Password', with 'Log In' and 'Create Account' buttons below them. Further down are links for 'Create Account' and 'Cart (0 items)'. The main header features the 'ALPHA' logo and the text 'Academy for Leading Physicians in Holistic Atopic Dermatitis & Psoriasis Advancements'. To the right of the header is a green 'Register' button with a note 'Already registered? Log in now.' Below the header, a navigation bar includes tabs for 'Overview', 'Instructions To Login', 'Contents (7)', 'Lilly - Terms and Conditions', and 'EME - Terms and Conditions'. The 'Overview' tab is active, showing a 'Dear Doctor,' greeting and details about the online educational program for Psoriasis and Atopic Dermatitis. It mentions that the course offers six on-demand videos by Harvard Medical Faculty Physicians and that participants will receive a certificate of participation. A list of topics to be discussed in the Psoriasis presentations is provided, including early intervention, treatment comparisons, and real-world evidence. Finally, it lists topics to be covered in Atopic Dermatitis, such as improving patient outcomes and the impact of phenotypes on treatment.
